

Dear Mr. Lee and everyone:

I'm a transplanted northerner who has made Augusta my home since 1982. I was in my local Kroger store in Evans and was looking for a more "local" sausage flavor, after becoming bored with the "big boy" brands.

I picked up a package of your hickory smoked sausage and had it a few weeks ago.

The flavor was outstanding and everything about your product satisfied. The natural casing helped bring back to me just how sausage should taste, and the background heat was just right. Your product has inspired me to try more of your products and I want you to know that the sausage was superior to anything I have tried.

Please thank everyone for their fine efforts and feel free to post this or distribute it to all interested. Thank you very much and as I'm writing this on Thanksgiving Day, I hope you have a fine holiday.

Regards,

Harold
