

I live in FL I was in S.C. Lake city on the 4th of July at a LGA store buying different smoked bacons to get the taste I wanted I bought a slab of Lee bacon had it sliced and low and behold I had been searching for your taste since I was a little girl and I'm 60yrs old now my search is over. My problem is of course I bought 6 slabs back to FL I went on your web site and called a Publix store here and asked for lee brand thick sliced bacon with the rind on she had no idea what the rind is I told her it's the pig skin she still did not have a clue so I guess I'll have to go to every Publix and Winn Dixie in St Petersburg FL we do not have Food Lion or LGA I want to try some of your smoked sausage also. Please tell me where I can find your products in my city. Keep up the good taste of food from long ago thank you, thank you, thank you.

Joann L.
